EZ SWAP

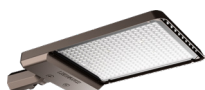

PERFORMANCE CLASS EZ SWAP™ FLAT PANEL RETROFIT KIT

- Being easy to install, and contractor friendly, the new LEDVANCE Performance Class EZ Swap™ Flat Panel Retrofit Kit is designed to retrofit into existing fixtures capitalizing on the ease of replacement.
- This patent-pending family comes in two sizes, 2x2 and 2x4, as well as EMBB options.

OPTI SELECT

PERFORMANCE CLASS OPTI-SELECT AREA LIGHT

- Experience a true revolution in area lighting with our groundbreaking OPTI-SELECT technology!
- Types III, IV and V distribution in the same product with a simple turn of a switch, no lens swap needed! That means easier inventory management, faster installation and no waterproof rating risks!
- The new OPTI-SELECT Area Light is also CCT and lumen selectable, ships with a universal mounting bracket, a 7-pin NEMA receptacle, and a receptacle for LEDVANCE plug and play sensors. Experience the future of lighting – all in one exceptional product.

PERFORMANCE CLASS WATTAGE SELECTABLE SPORTS LIGHT - REMOTE DRIVER

- We are excited to announce a new version of our WATTAGE SELECTABLE SPORTS LIGHT, now with REMOTE DRIVER!
- A broad range of selectable wattage options, ranging from 400W to 1500W, alongside three light distribution options (3x3, 4x4 and 5x5) and a driver that can be mounted up to 160ft away from the fixture. This means even more flexibility to your lighting projects!

PERFORMANCE CLASS WATTAGE SELECTABLE SPORTS LIGHT - LINE EXTENSION: UNV

- LEDVANCE now offers all the types in UNV (120-277V), besides the already available HUV 277-480V.
- Available in max wattages of 400W and 500W are offered in 4x4 and 5x5 distributions, and 750W and 1200W in 3x3, 4x4 and 5x5!
- The standard CCT is 5000K, but these can also be ordered in 4000K and 5700K, if needed. That means more application flexibility for your sports fields projects!

PERFORMANCE CLASS DUAL SELECTABLE VAPOR ILT

- The LEDVANCE Performance Class Vapor ILT is both wattage and color selectable. It's integrated lens tray allows for an easy and quick installation.
- Available in 120-347V, three lengths and wattage options, emergency battery backup, and field installable sensors provides a variety of options for all your installation needs.
- It also boasts a rugged exterior with stainless steel clips and a durable UV stabilized polycarbonate lens.

PERFORMANCE CLASS DUAL SELECTABLE WRAP HNG

- The new Performance Class Dual Selectable Wrap HNG series is a flexible, high-performance line of wrap fixtures that can be used in new construction and retrofit installations.
- These fixtures are available in 2ft and 4ft versions, and each one features 4 wattage selections and 3 CCT settings – ensuring exactly the right light for each application.
- Features a new Quad-Pack optical package that ensures smooth, uniform illumination from edge-to-edge of the 10.4" wide lens.
- Every luminaire comes pre-wired from the factory for single circuit through wiring - no additional wiring is needed for row mounting, which saves time, material and installation costs.

LEDVANCE NEW LUMINAIRES, PHASE EV™, & SMART+

LUMINAIRES

VALUE CLASS DUAL SELECTABLE WRAP FVL

- The Dual Selectable Wrap FVL is a new Value Class series of wrap luminaires.
- With three CCTs and multiple wattages combined into both 2-foot and 4-foot versions, the Wrap FVL bundles performance and value into each luminaire.
- Designed for fast, easy installation, the lens and LED light engine are removed as one unit - without tools – giving direct access to the wiring chamber.
- This series operates over the entire 120 to 347 volt input range and also features the availability of a choice of optional field installable PIR or microwave motion/daylight sensors as well as LEDVANCE LINK™ Bluetooth® sensors, making it quick and easy to add these capabilities - either during installation or at any time thereafter

PHASE EV™

PHASE EV™

48 AMP LEVEL 2 RESIDENTIAL CHARGING STATION

- The smart residential Level 2 PHASE EV™ electric vehicle charging station is perfect for use in single family and multi-family homes. It is also ideal for use in dealerships and small service stations.
- The residential PHASE EV station can be used for simple Plug & Charge applications or can be controlled and monitored using the free SYLVANIA WiFi App.
- This hardwired charger can deliver a maximum of 11.5kW to the vehicle which means up to 42 miles of range per hour of charge.
- The face of the charger features a Dynamic LED light that shows the status of the charger: standby mode, vehicle connected, charging in progress, and charge complete.
- The PHASE EV comes complete with everything needed to mount the charger and cable.

SMART+

SMART+

PERFORMANCE CLASS WIFI CAMERAS & DOORBELL/CHIME

- The LEDVANCE SMART+ WiFi cameras offer an easy and cost effective solution for both residential and most commercial applications.
- Easy to install, you will be able to enjoy live streaming and receive motion alerts wherever you have internet access – home or away.
- With two-way audio, listen and speak directly on your smart phone.
- The WiFi camera product family represents most application needs, indoor and outdoor with clear visibility at night.
