

# PRODUCT DATASHEET

## DP MAX EL 1500 S 41W 840 VW IP69

DAMP PROOF MAX EMERGENCY | Tubular damp-proof luminaires with extra high IP, IK protection and integrated emergency lighting function

### Areas of application

- Emergency illumination of escape routes
- Antipanic lighting
- Buildings requiring up to 3 h emergency light operation
- Food industry
- Open car parks and underpasses
- Car wash facilities
- Outdoor applications
- Industrial and storage facilities

SUPERIOR  
CLASS

### Product benefits

- Seamless integration of luminaires with emergency lighting function into general lighting
- Easy wiring thanks to included prewired driver and battery for Emergency lighting function
- Simple testing of luminaires with emergency lighting function thanks to integrated automatic test function
- Convenient visualization of results of automatic test with an included control LED
- Operation of integrated emergency lighting function with long life LiFePO4 battery with 3h battery discharge time
- Uniform light distribution in normal operation
- Versatile applications due to resistance to many chemicals and UV light

### Product features

- Luminaire suitable for normal lighting and emergency lighting
- Suitable for emergency central battery installations acc. to EN 60598-2-22
- Self-contained luminaires
- Emergency lighting function: battery discharge time of 3 h
- Function test of emergency lighting: automatic (AT)

- Battery technology: LiFePO<sub>4</sub>
- Type of protection: IP66, IP69 (80 °C)
- Impact resistance: IK10
- Ammonia resistant
- UV-resistant PMMA diffuser
- Compatible to Zhaga Book 7 LED light sources

---

**TECHNICAL DATA****Electrical data**

|                                                             |                       |
|-------------------------------------------------------------|-----------------------|
| Nominal wattage                                             | 41.00 W               |
| Nominal voltage                                             | 220...240 V           |
| Mains frequency                                             | 0/50/60 Hz            |
| Nominal current                                             | 165.000 mA            |
| Inrush current                                              | 22.64 A               |
| Inrush current time $T_{h50}$                               | 203 $\mu$ s           |
| Max. number of luminaires per miniature circuit breaker B16 | 27                    |
| Max. number of luminaires per miniature circuit breaker C10 | 28                    |
| Max. number of luminaires per miniature circuit breaker C16 | 45                    |
| Power factor $\lambda$                                      | 0.95                  |
| Total harmonic distortion                                   | < 10 %                |
| Protection class                                            | I                     |
| Surge capability (L-N)                                      | 1 kV                  |
| Surge capability (L/N-Ground)                               | 2 kV                  |
| Operating mode                                              | Integrated LED driver |

**Photometrical data**

|                                                |               |
|------------------------------------------------|---------------|
| Luminous flux                                  | 6000 lm       |
| Total luminous flux of contained light sources | 6650 lm       |
| Luminous efficacy                              | 146 lm/W      |
| Color temperature                              | 4000 K        |
| Light color (designation)                      | Cool White    |
| Color rendering index Ra                       | > 80          |
| Standard deviation of color matching           | 3 sdcm        |
| Low flicker                                    | Yes           |
| Flickering metric (Pst LM)                     | $\leq 1$      |
| Stroboscope effect metric (SVM)                | $\leq 0.4$    |
| Photobiological safety group acc. to EN62778   | RG1           |
| Beam angle                                     | 133 ° x 107 ° |
| UGR                                            | < 25          |

Dimensions & Weight

|                |            |
|----------------|------------|
| Length         | 1730.00 mm |
| Width          | 125.00 mm  |
| Height         | 138.00 mm  |
| Product weight | 5400.00 g  |

DP MAX 1500 S 840

Materials & Colors

|                                            |                               |
|--------------------------------------------|-------------------------------|
| Product color                              | Gray                          |
| Housing color                              | Gray                          |
| Body material                              | Polymethylmethacrylate (PMMA) |
| Cover material                             | Polymethylmethacrylate (PMMA) |
| Light emitting surface material            | Polymethylmethacrylate (PMMA) |
| Glow Wire Test according to IEC 60695-2-12 | 650 °C                        |
| Mercury content                            | 0.0 mg                        |

### Application & Mounting

|                                        |                            |
|----------------------------------------|----------------------------|
| Ambient temperature range              | 0...+35 °C                 |
| Temperature range at storage           | -20...+35 °C               |
| Type of connection                     | Screwless terminal, 3-Pole |
| Type of protection                     | IP66~IP69K                 |
| Protection class IK (shock resistance) | IK10                       |
| Dimmable                               | No                         |
| Mounting type                          | Surface/Suspended          |
| Mounting location                      | Ceiling / Wall             |
| Application environment                | Outdoor                    |
| With light source                      | Yes                        |
| Replaceable light source               | No                         |

### Lifespan

|                            |                        |
|----------------------------|------------------------|
| Lifespan L70/B50 at 25 °C  | 100000 h <sup>1)</sup> |
| Lifespan L80/B10 at 25 °C  | 100000 h <sup>1)</sup> |
| Number of switching cycles | > 200000               |

<sup>1)</sup> t[h]: L70 / B50 @ 25 °C (Ta), t[h]: L80 / B10 @ 25 °C (Ta), t[h]: L80 / B50 @ 35 °C (Ta)

### Control gear

|                             |                                      |
|-----------------------------|--------------------------------------|
| Output current              | 75...400 mA                          |
| ECG - Output ripple current | 1.5 %                                |
| Recommended control gear    | OT FIT 100/220...240/700 D NFC IND L |

### BATTERY

|                            |         |
|----------------------------|---------|
| Type of Battery            | LiFePO4 |
| Battery size [GMS]         | Others  |
| Nominal voltage of battery | 3.2 V   |

|                             |          |
|-----------------------------|----------|
| Nominal capacity of battery | 4500 mAh |
| Battery charging time       | < 24 h   |

### Emergency lighting

|                                            |                                             |
|--------------------------------------------|---------------------------------------------|
| Area of emergency application              | Anti-panic lighting / Escape route lighting |
| Type of emergency light operation          | Maintained / Non-maintained                 |
| Type of emergency operation test           | Automatic                                   |
| Wattage in maintained operation mode       | 41 W                                        |
| Wattage in emergency operation mode        | 2.3 W                                       |
| Luminous flux in maintained operation mode | 6000 lm                                     |
| Luminous flux in emergency operation mode  | 500 lm                                      |
| Battery life in emergency operation mode   | 3 h                                         |

### Certificates & Standards

|                                                      |                             |
|------------------------------------------------------|-----------------------------|
| Standards                                            | CE / CB / ENEC / UKCA / EAC |
| Luminaire with limited surface temperature, "D sign" | Yes                         |
| Ball shot safe                                       | No                          |
| Replaceable light source (EPREL)                     | Not replaceable             |

### Accessories Optional

| Product image                                                                      | Product name                       | EAN           |
|------------------------------------------------------------------------------------|------------------------------------|---------------|
|  | DP MAX MOUNTING BRACKET CLAMPS V4A | 4099854583360 |
|  | DP MAX MOUNTING TUBE CLAMPS V4A    | 4099854583384 |

### EQUIPMENT / ACCESSORIES

- Stainless steel clamps and M25 cable gland included

### Safety advice

- All electrical connections must be made by a qualified person.
- Caution, risk of electric shock.
- Product in protection class I. All electrically conductive, metallic housing parts that can absorb voltage during operation or during maintenance in the event of a fault must be continuously connected to the protective earthing conductor.
